If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am, and who, through me, the better to enable them to discharge their duty to their King and Country, humbly claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to Your Excellency's person at all seasonable times, and that their proceedings may receive from Your Excellency the most favourable interpretation.

The Honourable the Speaker of the Senate answered:—

MR. SPEAKER,—I am commanded by His Excellency the Governor General to declare to you that he freely confides in the duty and attachment of the House of Commons to His Majesty's Person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence, he grants, and upon all occasions will recognize and allow their constitutional privileges. I am commanded also to assure you that the Commons shall have ready access to His Excellency upon all seasonable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

His Excellency the Governor General was then pleased to open the Session by a Gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

I meet you under the shadow of the loss which Canada, in common with all parts of the Empire, has sustained in the death of our late beloved Sovereign, King George V. The sorrow so universally expressed is but one of the many evidences of the great regard in which his late Majesty was held by all men and nations. In no part of the King's dominions has the sense of national and personal loss been more deeply felt than in Canada. King George's patience and wisdom, his example of courage and devotion to duty, throughout a reign of unparalleled anxieties, will be held in all our memories as a great heritage.

I join with you in extending profound sympathy in their bereavement to King Edward VIII, Her Majesty Queen Mary, and all the members of the Royal Family. Toward the new King, there already exists, on the part of the people of Canada, a feeling of personal attachment and affection, occasioned by His Majesty's visits to this country, and the many friendships and wide acquaintances formed during the years he was known to us all as the Prince of Wales. To these sentiments will now be added in increasing measure those of loyalty and devotion.

I am profoundly sensible of the great honour of having been chosen as the King's representative in Canada. I am pleased that my meeting with the Members of both Houses should be at the beginning of the first session of the Eighteenth Parliament. It is with the greatest pleasure that I look forward to the associations of the next few years.

The seriousness of the international situation has contributed to the world's anxieties. My ministers are confident that they express the conviction of the people of Canada in adhering to the aims and ideals of the League of Nations, and in seeking, in unison with members of the League as well as with other nations, to support by all appropriate and practical means the maintenance of peace, and the establishment of a world order based on justice and equity.

Unemployment continues to be Canada's most urgent national problem. While there is an increase in the number of persons employed, the number of those on relief shows no abatement.

As a means of dealing with present emergency conditions, you will be asked, with the approval of the governments of all the provinces of Canada, to make provision for the establishment of a representative national commission, which will co-operate with the provinces and municipalities in an endeavour to provide work for the unemployed, and in the supervision of unemployment relief. The commission, which will be assisted by a representative advisory committee, will aim at effecting nation-wide co-operative effort toward increasing opportunities of gainful employment.

Transfer of the camps established for the care of single homeless men from the Department of National Defence to the Department of Labour, is in process of being effected. Every effort will be made to close the camps altogether at as early a date as expanding employment opportunities permit.

A royal commission has been appointed to inquire into conditions in the textile industry, as the result of the closing down on January 18th of one of the textile plants in the city of Sherbrooke, thereby occasioning, in midwinter, and at a time of unemployment, great hardship to hundreds of employees and their families. My ministers are of the opinion that industries should recognize an obligation to co-operate in every manner possible in continuing and providing employment, and that Labour and consumers have a right to have their voice heard, and influence felt, in the control of industrial policy. Where these ends cannot be effected through voluntary co-operation of all parties to industry, my ministers are of the opinion that there are the strongest reasons for State intervention.

With a view to safeguarding the interests of consumers a full inquiry will be instituted into representations which continue to be made respecting monopolistic control of the importation and distribution of anthracite coal.

In order to determine the question of their validity, reference has been made to the Supreme Court of Canada of a number of measures enacted at the last session of parliament.

I am happy to be able to inform you that a trade agreement between Canada and the United States of America was concluded on Armistice Day, 1935, and that the trade dispute with Japan, which had seriously affected the trade of both countries, was adjusted before the end of the old year.

The Canada-United States Trade Agreement will be submitted for your approval. You will also be forthwith advised of the basis on which normal trade relations between Canada and Japan have been restored.

My ministers believe that the Canada-United States agreement will mark a great improvement in Canada's international economic relations; also, that the principles embodied in this agreement, extended and applied with vigour and determination, will contribute to the reversal of the trend toward extreme economic nationalism, which has been undermining standards of living, and embittering relations between countries all over the world.

You will be pleased to know that the policy of the Canadian Wheat Board in selling wheat at competitive prices is bringing satisfactory results.

A conference between the Dominion Government and the governments of the provinces of Canada was held at Ottawa during the month of December. Continuing committees have since carried on consideration of the more important subjects discussed.

Among matters arising out of the Conference, which will be submitted for your consideration, will be a proposal for amending the British North America Act, 1867, in order to provide for certain financial arrangements between the

Dominion and the Provinces. A committee of Dominion and Provincial representatives, appointed by the Dominion-Provincial Conference, is engaged in the consideration of a method and procedure for effecting constitutional amendments.

It is proposed to restore to Parliament its control over taxation and expenditure by ending all measures which have deprived members of the House of Commons of this control, and which have served to invest the Executive with unwarranted arbitrary powers.

Every effort will be made to substitute stability for uncertainty in the administration of customs laws.

The control of credit, and the issue of currency, being public matters of direct concern to every citizen, it is intended, at the present session, to ask Parliament to make such changes in the ownership and control of the Bank of Canada, as may be necessary to give to the government a predominant interest in the ownership as well as effective control of the Bank.

You will be asked to consider amendments to existing legislation respecting the Canadian National Railways, which will serve to afford a greater measure of governmental authority and responsibility to Parliament.

It is proposed to make the present position of radio broadcasting in Canada the subject of inquiry by a special committee of the House of Commons.

Steps have already been taken with respect to the reorganization and consolidation of government services, which it is believed will further their efficiency and effect much needed economies. These will be supplemented by legislative measures to which your attention will be invited.

A reduction from twenty-one to sixteen has been made in the number of Ministers of the Crown.

A Bill to provide for the creation of parliamentary secretaryships will be submitted for your consideration.

Members of the House of Commons:

The Public Accounts of the fiscal year and the Estimates for the coming year will be submitted for your consideration.

Honourable Members of the Senate:

Members of the House of Commons:

In inviting your careful consideration to the important matters which will engage your attention, I pray that Divine Providence may guide and bless your deliberations.

The Commons withdrew.

His Excellency the Governor General was pleased to retire.

The Senate was resumed.

The Honourable Senator Dandurand presented to the Senate a Bill intituled: "An Act relating to Railways."

The said Bill was read the first time.

The Honourable the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General had been left in his hands.

The same was read by The Honourable the Speaker.

On motion, it was—

Ordered, That the Speech of His Excellency the Governor General be taken into consideration on Tuesday, next.

The Honourable the Speaker presented to the Senate the Report of the Joint Librarians, for the year 1935.

The same was then read by the Clerk, as follows:—

LIBRARY OF PARLIAMENT

Report of the Librarians for 1935

To the Honourable the Speaker of the Senate:

The Joint Librarians of Parliament have the honour to submit their report on the Library for 1935.

Work on the Supplementary Catalogue of books donated and purchased during the past year has been rapidly proceeded with, and it is expected that it will be printed within the next two weeks.

Among the interesting donations received was a complete set (30 volumes) of the works of Emmanuel Swedenborg, given by the Swedenborg Foundation. The French Minister of Foreign Affairs was good enough to present to the Library the French diplomatic documents (1871-1914) relating to the origins of the war of 1914. The Ministers of the various Legations in Ottawa have kindly presented various books and documents to the Library.

The Librarians have endeavoured to secure the most important of the large number of new books issued during the past year on Economics and Finance. The seventeenth volume of the comprehensive Dictionary of American Biography has been received.

For the French section of the Library some of the works purchased have been, *Politique Extérieure de l'Allemagne (1870-1914)* 18 volumes; *Académie de Droit International: Recueil des Cours*, 23 volumes; also *Dictionnaire encyclopédique Quillet*. The last volume of the *Dictionnaire de l'Académie française* has been received, and also the *Encyclopédie française*, which was issued with the approval of governmental authorities.

The beautiful parquetry floor of the Library in oak, cherry, and walnut, was laid down in 1875. It was somewhat damaged during the fire which, in 1916, destroyed the Parliament Buildings. The matter of its renovation was discussed last Session by the Joint Committee on the Library and the whole question is under consideration by the chief architect's branch of the Department of Public Works.

The appropriation for purchase of books and binding, which was cut down some years ago, has, during the past year been partially restored to the former amount, thus enabling a somewhat larger purchase of books to be made.

Respectfully submitted,

MARTIN BURRELL,

FELIX DESROCHERS,

Joint Librarians.

Ordered, That the same do lie on the Table.

The Senate adjourned.

The said amendment was then read by the Clerk, as follows:—

1. Pages 1, 2, 3 and page 4, lines 1 to 17, inclusive, for the preamble substitute the following:—

"Whereas the result of certain price stabilization and other operations of Canadian Co-operative Wheat Producers, Limited, carried on with the knowledge and consent of the Government of Canada by means of advances by certain lending banks guaranteed by the Government of Canada in pursuance of Relief Acts in effect from time to time, has been a loss; and

Whereas a transfer of wheat and contracts to purchase or take delivery of wheat in respect of which the Government of Canada had given a guarantee was made by Canadian Co-operative Wheat Producers, Limited, to The Canadian Wheat Board as of December 2, 1935, subject to final settlement of the terms of such transfer; and

Whereas Canadian Co-operative Wheat Producers, Limited, had, by February 29, 1932, made transactions related to the 1930 wheat crop approximately equal to the deliveries of wheat by primary producers during the 1930-31 crop year, and an analysis of the prices at which such transactions took place indicates that the transactions were made at approximately sixty cents a bushel, basis No. 1 Northern, Fort William, in the case of wheat other than Durum wheat, and approximately sixty-six cents per bushel, basis No. 1, Amber Durum, Fort William, in the case of Durum wheat, but that the spreads between the prices for various grades of wheat varied from the arbitrary spreads fixed at the time the initial payments were determined; and

Whereas, notwithstanding such loss, the primary producers of wheat other than Durum wheat who accepted initial payments on a basis of sixty or fifty-five or fifty cents a bushel, basis No. 1 Northern, Fort William, are justified in expecting those payments to be equalized on the basis of sixty cents a bushel, basis No. 1 Northern, Fort William, and primary producers of Durum wheat who accepted initial payments on a basis of sixty-four or fifty-four or forty-nine cents a bushel, basis No. 1 Amber Durum, Fort William, are justified in expecting those payments to be equalized on the basis of approximately sixty-six cents a bushel, basis No. 1 Amber Durum, Fort William, with the spreads between the various grades of wheat determined on the basis of the prices at which the transactions referred to in the preceding paragraph were effected:"

The Honourable Senator Black, from the Special Committee appointed to consider and report upon the operation of the Government Annuities Act, presented their second Report.

The same was then read by the Clerk, as follows:—

TUESDAY, 9th June, 1936.

The Special Committee appointed to consider and report upon the operation of the Government Annuities Act beg leave to make their second Report, as follows:—

In the investigation of the annuities question your Committee had in mind obtaining evidence to show:—

- (1) If the mortality tables used by the Annuities Branch were accurate and up-to-date;
- (2) If the interest rate upon which annuities were based was a reasonable and proper one;
- (3) If the Annuities Branch might be better placed or amalgamated with some other Department than that under which it is now placed.

On the first two points, there seemed to be unanimity of opinion from those giving evidence and the Department in charge of annuities.

Those who gave evidence before the Committee were Mr. A. D. Watson, Chief Actuary of the Department of Insurance; Mr. E. G. Blackadar, Superintendent of Annuities; Professor M. A. MacKenzie, of the University of Toronto, President of the Teachers' Insurance and Annuity Association of America. This Association is probably selling more annuities than any other one in North America.

In addition to all verbal evidence, there was a considerable amount submitted in writing.

The evidence showed that the mortality tables now used, were obsolete, and while insurance companies and other companies granting annuities had changed their mortality tables from time to time in recent years, the table used by the Annuities Branch remained unchanged with the result that the public Treasury is losing a very large amount of money annually.

The Annuities Branch estimates this loss to be about \$400,000 for the past year. The evidence submitted by others, however, indicates that the loss was probably greatly in excess of this amount.

Professor MacKenzie suggests that the present mortality table used in Great Britain is the better one to adopt. He further states that it is about the same as the latest mortality table used in the United States.

The evidence shows that under the present rates charged by the Canada Life an annuity for a man aged 50 is computed at 16·93 times the revenue, that is to say, an annuity of 1,000 dollars a year would cost \$16,930 whereas at the present rate of Government annuities, it would only cost him \$13,970. This one annuity would show a loss under our present plan, to the Government, of \$3,000 or a loss rate of about 22 per cent. In other words, the mortality table used by Canada plus the interest rate is 22 per cent out of line with the present rates in use elsewhere.

The interest rate upon which the annuities were based by the Government, namely 4 per cent, was, at the time the measure was enacted, a reasonable rate, but since then, changes in money rates have made it necessary for the insurance and other annuity groups to reduce their rates while the Government rate has remained unchanged.

As shown in the table submitted by Professor MacKenzie, the rate of interest on which annuities have recently been computed varies from $2\frac{1}{2}$ to $3\frac{1}{2}$ per cent and these rates cover all costs of management, etc., but the Government rate still remains at 4 per cent and to this must be added the cost of administration, commissions, salaries, etc., which means, according to the evidence given by Mr. Watson, that the interest rate which the Government is paying for the money, which it obtains through the sale of annuities, has in the past cost from 6 to $6\frac{1}{2}$ per cent. While there is some difference in the method of computation, yet all the evidence agreed that the interest rate is entirely too high.

With respect to the third and last point, namely, if the Annuities Branch might be better placed or amalgamated with some other Department than that under which it is now placed; on this the Committee makes no comment feeling that this is a matter of Government administration and should be left in their hands. We may quote, however, the following from Professor MacKenzie's evidence:—

"We have in the Government service an Insurance Department, properly equipped with capable men whose business it is to understand such things as this. Whatever else we do with the Annuities Branch, it seems to me that if we are going to make any change at all, we should arrange for the closest co-operation and check-up between the two . . . It does not appear reasonable that there should be no co-operation and check-up between the two Departments. If provision is made for them to co-operate, I think we should be safe for the future."

Much the same opinion was expressed by Mr. Watson.

In view, therefore, of the evidence submitted, your Committee recommends:—

(1) That up-to-date mortality tables be obtained and used by the Department, said tables to be revised from time to time to keep them up-to-date; and

(2) That the interest rate upon which the annuities are based should not exceed $3\frac{1}{2}$ per cent, this to include cost of administration, salaries and commissions, if any, and

(3) That the interest rate should be subject to change from time to time in accordance with the cost of money as is done in the British annuities system (See Evidence), and

(4) That a continuous audit be maintained for the information of the Minister in charge of annuities and the Minister of Finance.

A copy of the evidence obtained is attached herewith.

All which is respectfully submitted.

F. B. BLACK,

Chairman.

CIVIL SERVICE COMMISSION OF CANADA

OTTAWA, June 11th, 1936.

In accordance with the provisions of Section 61 and Section 12 of the Civil Service Act, the Civil Service Commission, at the request of the Clerk of the Senate, submits the following report for approval:—

Speaker's Steward

It is recommended that the compensation of this class, which is at present—

Annual: \$1,260 \$1,320 \$1,380 \$1,440 \$1,500 \$1,560

be revised to read as follows:—

Annual: \$1,500 \$1,560 \$1,620 \$1,680 \$1,740 \$1,800

Assistant Chief Clerk of Committees, Senate

Compensation:—

Annual: \$3,120 \$3,240 \$3,360 \$3,420

This is a new class.

Under the provisions of Section 61 and Section 9 of the Civil Service Act, the Civil Service Commission recommends that the organization of the Senate be changed as follows:—

That a position of Committee Clerk and Clerk of Minutes and Journals, Senate (\$2,220-\$2,700) be created in lieu of one of Clerk of English Minutes of Proceedings and Journals (\$1,920-\$2,400), SC-A-9.

The Clerk of the Senate also requested a change in the compensation of the class "Curator of Reading Room" from \$1,320-\$1,680 to \$1,500-\$1,800. The Commission recommends that no change be made in the compensation of this class.

It is recommended that the foregoing changes be made effective from May 1st, 1936.

Attached hereto is a copy of a report dated June 2nd in connection with the above changes.

Respectfully submitted,

W. E. FOSTER,

Speaker of the Senate.

C. H. BLAND,
Chairman.

SENATE

REVIEW OF SALARIES FOR CERTAIN POSITIONS IN THE SENATE

JUNE 2nd, 1936.

The Clerk of the Senate has forwarded a certified copy of the Second and Third Reports of the Standing Committee on Internal Economy and Contingent Accounts of the Senate, recommending

- (1) A revision of the salary range of the class Clerk of English Minutes of Proceedings and Journals of the Senate.
- (2) Revision of the salary range of the Speaker's Steward.
- (3) Revision of the salary range of the Curators of the Reading Room.
- (4) Reclassification of a position of Head Clerk to Assistant Chief Clerk of Committees.

(1) *Clerk of English Minutes of Proceedings and Journals of the Senate*

The request of the Committee for a revision in compensation for the class, Clerk of English Minutes of Proceedings and Journals, from \$1,920-\$2,400 (\$120) to \$2,400-\$2,880 (\$120) has arisen from a combination of circumstances. These duties were formerly classified, and are still so shown on the Official Position List, as Committee Clerk and Clerk of Minutes and Journals, Senate, \$2,220-\$2,700 (\$120). At present the Senate considers the classification as Clerk of English Minutes of Proceedings and Journals, \$1,920-\$2,400 (\$120). It would appear that a revision to the Official Position List was not issued but it was required to show the classification of position SC-A-9 as Clerk of English Minutes of Proceedings and Journals, \$1,920-\$2,400 (\$120).

In comparing the position with that of a similar type in the House of Commons, viz. the Chief of English Journals, \$3,600-\$4,440 (\$180), the Committee has considered that on this basis and also in the previous classification a change in compensation is justified. The present request is, in effect, \$180 in excess of the maximum previously applicable in this case, being \$2,400-\$2,880 (\$120) as compared to \$2,220-\$2,700 (\$120).

The Organization Branch considers that, since the duties of this position appear to be covered by the class Committee Clerk and Clerk of Minutes and Journals, Senate, \$2,220-\$2,700 (\$120), such a classification should be applied to this position, rather than revising the compensation for the class Clerk of English Minutes of Proceedings and Journals, as recommended by the Committee.

It is therefore recommended that position SC-A-9 be reclassified from Clerk of English Minutes of Proceedings and Journals, \$1,920-\$2,400 (\$120) to Committee Clerk and Clerk of Minutes and Journals, Senate, \$2,220-\$2,700 (\$120).

While this action is a saving of \$180 on that recommended by the Committee, the immediate cost is \$60 and the final cost \$300.

(2) *Speaker's Steward*

The class Speaker's Steward provides a compensation of \$1,260-\$1,560 (\$60), the Committee recommending that this salary be revised to \$1,500-\$1,800 (\$60), an increase of \$240 to the maximum of the class. This position may be compared to that position of somewhat similar duties in the House of Commons, the incumbent of which is paid on a daily basis, providing close to \$2,000 per year. This employee is required to be present at formal functions and, in addition to arranging for them, to introduce the guests. Such duties are performed

by the Speaker's Steward in the Senate but it is considered that allowance is made for any lesser volume in the salary range recommended. This employee is required to perform duties which are closely similar in arranging for the functions and for the comfort of the Speaker.

The class has in the past been compared with the Head Steward, Royal Military College, \$1,500-\$1,680 (\$60), Hospital Orderly, Grade 5, \$1,380-\$1,680 (\$120), Steward, Quarantine Hospital or Station, \$1,140-\$1,500 (\$120) and Official Car Porter and Court Crier, Board of Railway Commissioners, \$1,680-\$1,980 (\$120). While this comparison in the past was stated to not justify the recommendation for a higher maximum to the class Speaker's Steward, it is thought that sufficient attention was not paid to the formal nature of the duties and the hours of attendance on the Speaker.

It is therefore recommended that the salary range for the class Speaker's Steward be revised from \$1,260-\$1,560 (\$60) to \$1,500-\$1,800 (\$60).

The immediate cost of this action is \$60, the final cost \$240.

(3) *Curator of Reading Room*

There are two positions of Curator of Reading Room, SC-24 and 25. The Committee recommends that the salary range which is at present \$1,320-\$1,680 (\$60) be revised to read \$1,500-\$1,800 (\$60). In the opinion of the Organization Branch these positions must be considered together with those located in the House of Commons. These Reading Rooms are used for presenting in a ready form the newspapers, journals and magazines required by the Members of both Houses, and are in the nature of an additional service to the Library of Parliament, not of course being under that body. There is a very useful service provided by these rooms and the Curators are required to be fairly familiar with the matter contained in the papers and magazines, in order to provide a modest reference service for the Members of both Houses.

The classes, Curator of Reading Room and Assistant Curator of Reading Room, do not however closely approximate the class Departmental Librarian in its three grades, which are as follows:—

Grade 1, \$1,140-\$1,440 (\$60).

Grade 2, \$1,440-\$1,800 (\$60).

Grade 3, \$1,800-\$2,220 (\$60).

It is considered that the class Curator of Reading Room at present provides an ample compensation for the service provided and the Commission therefore cannot recommend any change in compensation.

(4) *New Class, Assistant Chief Clerk of Committees, Senate*

The position of Head Clerk SC-8 is recommended for reclassification to Assistant Chief Clerk of Committees. There are at present only three Committee Clerks and there is no Assistant to the Chief Clerk of Committees, Senate, \$3,600-\$4,440 (\$180). The proposal of the Committee is to reclassify the position of Head Clerk, \$2,520-\$3,000 (\$120) to "Assistant Chief Clerk of Committees, Senate, \$3,120-\$3,420 (\$120)," which will entail the creation of a new class. This action will effect a classification parallel to that employed in the House of Commons.

In explanation it should be stated that owing to a gradual change in the functions of the Senate the work in the Chamber proper is decreasing and Committee work increasing rapidly and beyond all expectations. While much of the private bills in the Senate were for divorce and provincial courts have now been set up to deal with the greater part of this work, a considerable and growing volume of committee work exists. The duties of the proposed position will consist of assisting the Chief Clerk of Committees, Senate, in examining and advising on private bills, in keeping records and in handling correspondence.

It is recommended that authority of Council be obtained for the creation of such a new class and for the reclassification of position SC-8 accordingly, from Head Clerk.

The immediate cost of this action is \$120, the final cost \$420.

A Message was brought from the House of Commons by their Clerk in the following words:—

OTTAWA, 7th June, 1936.

The Joint Committee of both Houses on the Printing of Parliament herewith submits its first Report, as follows:—

Two lists of documents, tabled in the Senate and House of Commons, were considered by the Committee. The first had previously been submitted to a Sub-Committee consisting of Senators G. V. White and Taylor, and Messrs. McIntosh and Tustin, M.P.'s, together with the Acting Chairman, Mr. MacLean (Prince). This Sub-Committee reported that it had carefully gone through the list of returns and, in view of the fact that all the documents tabled are filed in the office of the Clerk of Sessional Papers, where any Member of Parliament may have access to and obtain copies of them, it was recommended that they be not printed for general distribution. The Report of the Sub-Committee was adopted.

The Committee examined and agreed that List No. 2 be included with this Report.

Your Committee, therefore, has the honour to recommend to both Houses that none of the papers appearing in the two lists hereto attached, be printed.

Respectfully submitted.

A Message was brought from the House of Commons by their Clerk in the following words:—

FRIDAY, 19th June, 1936.

Resolved,—That a Message be sent to the Senate to acquaint their Honours that this House agrees to their fifth, sixth, tenth, eleventh, twelfth, thirteenth and fourteenth amendments to Bill No. 75, An Act to amend the Income War Tax Act, and disagrees to their first, second, third, fourth, seventh, eighth and ninth amendments, for the following reasons:—

Because, respecting the first amendment, paragraphs C and D of the First Schedule of the Act are “enacted” by section two of Chapter forty of the Statutes of 1935, not re-enacted. To “re-enact” is to enact again in the same terms. These paragraphs were enacted by the Act of 1935 in terms different from that of the repealed paragraphs.

Because, respecting the second amendment, the First Schedule of the Act is repealed in precise words by the Act of 1932-33, and a new Schedule “enacted”. The Schedule is, therefore, not “amended”.

Because, respecting the third, fourth, eighth and ninth amendments, the reasons for disagreeing to the second amendment apply equally to these amendments, and further, because these changes would have the effect of substituting a new and incorrect method of drafting the enacting words in a clause of a Bill, a method contrary to that which has constantly been followed up to the present time, and would further have the effect of disrupting the uniformity of our statutes.

Because, respecting the seventh amendment, the word “and” would be substituted for the word “or”, which is already in the Act, and the effect would be contrary to the desired intention of the section, which is that a company shall be liable for the tax “if it should fail to file the annual return or to pay the said filing fee”, that is, the company shall be liable in either case.

And further, That this House, with respect to the fifteenth amendment made by the Senate agrees to their amendment with an amendment to their amendment as follows:—

For the words “of said subsection (8)” substitute the words “of this subsection”, for the reason that the words “of said subsection (8)” would be part of subsection (8) itself. As the words are incorporated in the subsection, it is preferable to use the words “of this subsection”.

Ordered,—That the Clerk of the House do carry the said Message to the Senate.

Attest.

ARTHUR BEAUCHESNE,
Clerk of the Commons.

With leave of the Senate, it was

Ordered, That the said Message be taken into consideration presently.

The Senate, accordingly, proceeded to the consideration of the said Message. After debate, and—

On motion, it was—

Resolved,—That the Senate do not insist upon its 1st, 2nd, 3rd, 4th, 7th, 8th and 9th amendments, to which the House of Commons have disagreed, and doth agree to the amendment made by the House of Commons to its 15th amendment, without any amendment.

Ordered, That a Message be sent to the House of Commons accordingly.

A Message was brought from the House of Commons by their Clerk, in the following words:—

FRIDAY, 19th June, 1936.

Resolved,—That a Message be sent to the Senate to acquaint Their Honours that this House agrees to their fourth amendment and disagrees with their first, second, third and fifth amendments to Bill No. 17, An Act respecting the National Harbours Board, for the following reasons:—

1. Amendment No. 1 makes impossible re-employment of many officers and employees of present harbour boards who have long years of service, and in addition would seriously handicap the Board in the conduct of its many competitive business operations.

2. Amendment 2 arises out of Amendment 1, and is not otherwise required.

3. Amendment 3 imposes restrictions that serve no useful purpose, and which are not presently imposed on other government services.

4. Amendment 5 is permissive only, and confers on the Board no new authority. The Government holds the view that the step specified by this clause is not desirable at this moment.

Ordered,—That the Clerk of the House do carry the said Message to the Senate.

Attest.

ARTHUR BEAUCHESNE,

Clerk of the Commons.

Ordered, That the said Message be taken into consideration presently.

To this Bill the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

"In His Majesty's name, the Honourable the Deputy Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

After which the Honourable the Deputy Governor General was pleased to close the First Session of the Eighteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Members of the Senate:

Members of the House of Commons:

In relieving you of your duties, I congratulate you upon the care and attention given the many far-reaching measures submitted for your consideration. Your labours have been arduous and exacting; they have, however, served to complete, almost in its entirety, the extensive program outlined in my speech at the Opening of Parliament.

The Trade Agreement concluded on Armistice Day, 1935, between Canada and the United States of America, received your early approval, and its provisions have now been in force for some time. Legislation has been passed implementing the undertakings of the Agreement and of the settlement of the trade dispute with Japan. Substantial reductions have been made in the rates of duty on implements of production in the agricultural industry, and on machinery in other basic industries, as well as on articles of domestic consumption. The pronounced increase of our trade during recent months is evidence of the beneficial effects of the Government's fiscal policies. My Ministers are continuing their efforts to expand trade with other countries.

Comprehensive measures have been enacted to effect a nation-wide co-operative effort to overcome conditions created by the long-continued existence of unprecedented unemployment, and to effect a more complete supervision of the expenditure of funds for purposes of relief. The National Employment Commission has been appointed, and has entered upon its duties. Appropriations have been made for projects to provide work, and to assist the provinces in the granting of direct relief. The Government has been authorized to enter into agreements to expand industrial employment. Special provision has been made to supply work for single homeless men in relief camps, and the camps will be closed on July the first.

Provision has been made for aiding in the reestablishment of needy fishermen and for expanding the sale of Canadian fisheries products at home and in foreign markets.

The Bank of Canada Act has been revised so as to give to the Government effective control of the Central Bank as well as a predominant interest in its ownership.

Existing legislation respecting the Canadian National Railways has been amended so as to provide for the appointment of a Board of Directors in a manner which will serve to afford a greater measure of government authority and responsibility to Parliament.

Radio broadcasting in Canada has been made the subject of inquiry by a Special Committee of the House of Commons. The Committee's recommendations have been embodied in legislation which provides for the carrying on of a national broadcasting service in Canada under a broadcasting corporation having complete control over all forms of broadcasting, whether public or private.

Provision has been made for the reorganization and consolidation of important departments and branches of the public service. The consolidation

of certain existing departments into the Department of Mines and Resources and the Department of Transport, and the co-ordination of the administration of the national harbours, will greatly further the ends of efficiency and economy.

The Royal Commission appointed to inquire into conditions in the textile industry is continuing its investigation, and a Royal Commission has been appointed to conduct an investigation respecting the importation and distribution of anthracite coal.

The War Veterans Allowance Act has been amended to provide for special consideration to veterans having attained the age of fifty-five. A Veterans Assistance Commission Act has been passed with a view to securing more general employment of returned soldiers. Amendments have been made to the Pensions Act to simplify procedure and expedite the hearing of claims.

Amendments to the Criminal Code have been made, including the repeal of Section 98, relating to unlawful associations.

Other important measures have been enacted.

The several opinions of the judges of the Supreme Court of Canada touching the validity, in whole or in part, of a number of measures enacted at the sessions of Parliament in 1934 and 1935, have been received within the past few days, and are being carefully studied by my Ministers and by the law officers of the Crown.

My Ministers have given continuous thought to the serious international situation. They have sought to support by all appropriate and practicable means the establishment of a world order based on justice and equity. At the forthcoming meetings of the Assembly of the League of Nations to be held at Geneva at the end of the present month, and in September, the representatives of Canada will seek, in co-operation with other delegates, to further in the most effective way the aims and ideals of the League.

His Majesty the King has graciously consented to unveil, on July the twenty-sixth, the memorial on Vimy Ridge, erected in commemoration of the valour and sacrifice of the Canadian soldiers who fought during the Great War. The acceptance by the King of the invitation of His Majesty's Canadian Ministers, and by the President of the French Republic of the Canadian Government's invitation to be present on this occasion has been deeply appreciated.

Members of the House of Commons:

I thank you for the provision which you have made for the public service.

Honourable Members of the Senate:

Members of the House of Commons:

The many important measures enacted at the present session, the first of the eighteenth Parliament of Canada, constitute, I believe, a substantial contribution towards national recovery.

In taking leave of you at this time, I pray that the blessing of Divine Providence may rest upon your labours.

The Honourable the Speaker of the Senate then said:—

Honourable Members of the Senate:

Members of the House of Commons:

It is the Honourable the Deputy Governor General's will and pleasure that this Parliament be prorogued until Monday, the 3rd day of August, next, to be here holden, and this Parliament is accordingly prorogued until Monday, the 3rd day of August, next.
